

S.O.S. - Senior Oral-health Services is excited to announce a partnership with the North Carolina Cultural Change Coalition (NCCCC) to provide **free** preventive oral care training for your nursing staff. This initiative comes at no cost to your community and is designed to enhance the quality of care for your residents through improved preventive oral care.

The **NC Cultural Change Coalition (NCCCC)** is dedicated to improving resident care through education and outreach. Recognizing the critical gap in oral care for nursing home residents, NCCCC has partnered with SOS to deliver this essential training. **Your facility has been selected to participate in this innovative program.**

How the Program Works:

1. SOS identifies nursing homes and skilled care facilities for participation.
2. Facility administration signs a **"Participation / Letter of Commitment"** to join the quality of life education program.
3. SOS provides **three training sessions per year** for nursing staff.
4. Each session lasts approximately **45 minutes** and can be conducted **in person or via Zoom**—whichever best fits your facility's needs.
5. Training sessions will be scheduled at various times to accommodate **all shifts**.
6. SOS will collect outcome data, including **satisfaction surveys and overall care improvement assessments**, for administrative review.

This program is **fully funded by CMS**, so there is **no cost** to your community. Additionally, the training sessions fulfill in-service education requirements while **improving the oral health of your residents**.

Sign Up Today!

Spaces are limited, and the enrollment deadline is approaching soon. Don't miss this opportunity to enhance resident care.

For more information or to enroll, please contact **AnnMarie Miller** at **828-337-6468** or **inf@sosavl.com**.

We look forward to working with you to improve oral health for your residents!
